---

Chad,

Thanks again for compiling the data and answers to our questions.

I've been reviewing the data and think it would be good for all committee members to know the following:

**From Q1 2019 – Q4 2019 (Pre-COVID)**

	Accredited Programs using TR-90a	Individual Programs using CTS
NREMT 1 <sup>st</sup> attempt pass rate – cognitive exam	76% (905/1193)	66% (1308/1972)

**From Q3 2020 – Q3 2021 (COVID)**

	Accredited Programs using TR-999	Individual Programs using TR-999
NREMT 1 <sup>st</sup> attempt pass rate – cognitive exam	80% (1239/1535)	66% (1232/1860)

See you tomorrow,  
Bill

**Subject:** RE: SPECIAL CALL MEETING: Training & Certification Committee - November 12, 2021

Dear Committee Member,

At your October 6<sup>th</sup> meeting, the Committee requested that OEMS research questions submitted by committee members in reference to the two items on the Special Call meeting agenda:

1. Field/Clinical Requirements for EMT Students
2. EMT Student Competency Verification vs. CTS Testing

I have compiled and attached a list of questions that were asked by then deadline and the ACE Division responses to those questions.

We look forward to seeing you on Friday, November 12, 2021 at 9:00 AM at the Embassy Suites.

Best,

Chad
