

***Funding Equity and Prioritizing Populations Disproportionately
Affected by COVID-19***

**Cycle 4 Application Pre-Submission Checklist for
Community Based Organizations**

- ✓ Does your organization have an established history of serving populations in Prince William County, City of Manassas, or Manassas Park?
- ✓ Does your organization demonstrate broad reach into population(s) identified as those disproportionately affected by COVID?
- ✓ Do you have experience in collaboration with other community partners, entities, and organizations to help improve health outcomes?
- ✓ Do you have the understanding of, and ability to work with a reimbursement model?
- ✓ Have you clearly identified the target population(s) in your proposal?
- ✓ Are the activities in your proposal focused on vaccine education, awareness, and uptake in populations at higher risk of COVID?
- ✓ Do your activities target population(s) experiencing the heaviest burden of illness and/or the lowest vaccination rates?
- ✓ Does your narrative demonstrate how the funding will be used to implement, support, and/or expand vaccination activities?
- ✓ Does your project ensure greater equity and access to COVID-19 vaccines?
- ✓ Does your proposal convey your intent, (specifics not required), to continue your vaccination efforts and ongoing activities after the grant period has concluded?
