Bring broadband to more parts of Virginia.</p>	What legislation can we support?

**Other ideas:**

- We could include the PWC Alliance once they have their plans in place
- What about annual budgets?
- Efforts and plans of the Northern Virginia Regional Commission (NRVC)
- Efforts and plans of the Metropolitan Washington Council of Governments (MWCOCG)
- Northern Virginia CHIP effort? (talk to Rachel Lynch)
- For marketing and outreach, we could work with the County and Cities' PIOs for guidance, expertise, and opportunities for trainings and sharing of resources
- What efforts can be currently support and advocate for, showing up at forums to discuss these changes and policies, etc.
- What about efforts of the local hospitals, KP, etc.
- What grants will be offered in the upcoming cycles (we may need someone to make us a document that keeps track of this information)
