Immediate Relief

When you stop smoking, your body stops working overtime as it tries to keep up normal function. You feel better almost immediately.

48 hours

Sense of taste and smell return

2-3 weeks

Walking becomes easier as lungs improve

Improved Health

No matter your age or how long you've smoked, once you stop, you reduce your risk of cancer, heart disease, COPD and diabetes. Studies have also shown a tobacco free lifestyle improves your mental health.

After 9 months

Coughing and shortness of breath subside

After 1 year

Risk of coronary heart disease is cut in half

After 5 years

Risk of stroke equals that of a non-smoker
