

State Funding of Certain Abortions
Virginia Department of Health
SFY 2021-2025 (July 1, 2020-June 30, 2025)

The table below lists the number of State Funding of Certain Abortion applications received and approved by the Virginia Department of Health (VDH) during state fiscal years 2021-2025 (July 1, 2020-June 30, 2025). Also included are program expenditures for each state fiscal year. Applications and expenditures are separated by Code: applications under **§ 32.1-92.1** (rape/incest) are listed first, followed by applications under **§ 32.1-92.2** (anomalies). Totals for each year are listed at the bottom of the table. VDH receives and pays invoices on a rolling basis, meaning that some expenditures during one fiscal year may correspond with applications received during the previous fiscal year.

Although **§ 32.1-92.2** remained in effect during this reporting period (July 1, 2020-June 30, 2025), the Virginia General Assembly prohibited VDH from funding abortions in cases of fetal anomalies from May 2, 2019, to April 29, 2020. No applications for these cases were accepted during the prohibition period. Program expenditures remained low after the prohibition period because invoices are processed on a rolling basis after procedures occur.
