

Organizational Structure Report

August 1, 2025

Overview

The Virginia Department of Health's (VDH) mission is to protect the health and promote the well-being of all people in Virginia, with the vision of being the healthiest state in the nation. The agency values a culture of service, equity and data driven decisions. VDH is comprised of a statewide Central Office in Richmond as well as regional offices of several Central Office related Programs, and 35 health districts, three of which are locally administered.

The VDH maintains five core strategic goals:

- Goal 1: Maintain a competent and valued workforce;
- Goal 2: Provide internal systems that deliver consistent and responsive support.
- Goal 3: Be a trusted source of public health information and services;
- Goal 4: Foster healthy, connected, and resilient communities; and
- Goal 5: Assure the conditions that improve health opportunity

The VDH is led by a State Health Commissioner appointed by the Governor of Virginia. The Health Commissioner oversees the strategic direction of the agency and provides advice and support to the Governor through the Secretary of Health and Human Resources. The Health Commissioner is supported by a Strategic Leadership Team (SLT) consisting of 13 agency leaders. Collectively, these senior level executives assist with navigating VDH through a complex statewide health landscape while promoting the well-being of all people in Virginia. The SLT consists of the following:

- The Chief Operating Officer;
- The Chief Deputy Commissioner;
- Two Deputy Commissioners;
- Two Assistant Deputy Commissioners;
- The Chief Financial Officer;
- The Assistant Chief Financial Officer;
- The Chief Information Officer;
- The Director of Community Relations;
- The Workforce Development and Engagement Director;
- The Director of Policy and Planning; and
- The State Epidemiologist* (this position is not organizationally within the Office of the Commissioner)

Structure and Responsibilities

Programs within VDH are administered by offices and health districts which report through specific SLT members, as follows:

Operations Administration

The Chief Operating Officer (COO) is appointed by the Governor and is responsible for overall Operations of the Agency. He works closely to liaise with the Office of the Secretary of Health and Human Resources. Additionally he has oversight of several key offices within the Agency and supports the Health Commissioner via shared oversight of two offices and information security operations, as well as primary oversight of additional programs deemed critical to agency operational effectiveness. The COO oversees the Monthly Operating Review process of all Central Offices Programs. Additionally he works with Deputy Commissioners and other Chiefs to ensure Operational objectives are achieved in each business unit.

The [Office of Licensure and Certification](#), which works to ensure the quality of healthcare delivered by providers is safe, cost effective, and compliant with state and federal laws.

- The [Office of Human Resources](#), which facilitates hiring and employee relations for VDH's statewide Central Offices in Richmond and the 32 state-administered LHDs.
- The [Office of Internal Audit](#), which promotes a culture of accountability, collaboration, and best practices through the delivery of independent and risk-based auditing services that add value and encourage efficiency and effectiveness in public health programs and operations.
- [Information Security](#), which is managed by the Chief Information Security Officer, and focuses on security of all VDH data and related threats impacting the agency.
- [Community Relations](#), which works closely with public, private and academic partners, focusing on strategic communications to effectively tell the agency's unique public health story, marketing key functions that positively impact health and well-being, and building public trust. Community Relations oversees agency [Workforce Development and Engagement](#), which focuses on workplace culture

August 1, 2025

and training that enhances employee growth and a sense of belonging. This team works closely with all Offices and health districts on employee engagement activities and related tools. This team also includes the agency's Training Unit.

Community Health Services

The Chief Deputy and Assistant Deputy Commissioner for Community Health Services oversee all Community Health Services (CHS) activities across statewide health districts and within the central office. There are 35 health districts statewide. Three districts are locally administered: Fairfax, Arlington and Loudoun. The remaining 32 districts are administered by the state. Ten districts are currently joined to form 5 combined districts: Lenowisco and Cumberland Plateau; Pittsylvania/Danville and Southside; Peninsula and Hampton; Roanoke and Alleghany; and Richmond and Henrico. Central Virginia and West Piedmont were previously combined but were separated during the past year. The remaining 22 districts operate as single health district entities.

Organizing public health services into districts allows the state's public health needs to be managed at a community level by individuals knowledgeable of local populations. Each district is unique but has a similar structure, with operations overseen by a district director. Combined districts are jointly managed on a long-term basis by a single district director.

The Code of Virginia was changed on July 1, 2022, to allow non-physicians to serve as district directors. If the district director is not a licensed physician, they are supported by a licensed medical officer to help manage clinical services. As of June 10, 2025, VDH has hired 10 non-physician district directors for the following districts: Eastern Shore, Mount Rogers, Lenowisco-Cumberland Plateau, Lord Fairfax, Three Rivers, Blue Ridge, Western Tidewater, Prince William, Rappahannock-Rapidan and West Piedmont. Currently, two health district director positions are vacant – Arlington and Central Shenandoah.

All health districts have traditional service areas: Environmental Health, Epidemiology, Business Operations, Human Resources, Clinical Services and the Virginia Women Infants & Children (WIC) program. In addition, each district has an individual serving as an Emergency Preparedness Coordinator. Some districts have Population or Community Health teams. The districts interact with the public in the day-to-day actions of public health, providing services such as vaccinations, disease contact tracing, and restaurant inspections. CHS also contains a centralized operations office, with staff who assist districts through assistance and standardized processes for business operations, human resources and client services.

CHS is currently conducting a Regional Director Pilot which aims to assess a regional leadership model for enhanced support and coordination statewide. Four District Directors are dedicating 25% of their time to serve as Pilot Regional Directors across 4 defined regions. CHS is partnering with Process Improvement Analysts from Government and Regulatory Affairs to evaluate the pilot and guide future structural decisions.

Governmental & Regulatory Affairs

The Deputy Commissioner for Governmental and Regulatory Affairs oversees activities related to policy, legislative, and regulatory issues. This deputy area coordinates VDH's responsibilities involving General Assembly sessions and legislative liaising, including oversight, preparation and review of draft bills, and submitting legislative action summaries and enrolled bill reviews. This area also coordinates VDH responsibilities involving the state regulatory process, including conducting periodic reviews of regulations, and developing regulatory actions for consideration by the State Board of Health. Additional responsibilities of this deputy area include administration of the State Board of Health, HIPAA compliance, records management, language access and constituent mail response. The Deputy Commissioner for Governmental and Regulatory Affairs also oversees two offices, one unit and the Institutional Review Board:

- The [Office of Communications](#), which produces press releases, bulletins and multimedia necessary to effectively communicate VDH priorities, needs and procedures. This office also coordinates VDH responses to FOIA requests.
- The [Policy and Planning unit](#) leads VDH strategic planning, accreditation, performance management, quality improvement, and administrative policy processes. Additionally, the unit oversees and coordinates the agency's legislative and regulatory tasks alongside general public policy development.
- The [VDH Institutional Review Board \(IRB\)](#), which coordinates research-related activities that involves agency data. This may be in coordination with VDH Offices, LHDs, institutions of higher education or combinations thereof.

Population Health and Preparedness

The Deputy Commissioner and Assistant Deputy Commissioner for Population Health and Preparedness oversee nine offices, managed predominately from the VDH Central Office in Richmond, VA. These nine offices include the following:

- The [Office of Drinking Water](#), which protects public health by ensuring Virginians have a safe and adequate supply of drinking water. This Office consists of six regional field offices, including within the James Madison Building.

August 1, 2025

- The [Office of Emergency Medical Services](#), which plans and coordinates effective and efficient statewide Emergency Medical Services.
- The [Office of Emergency Preparedness](#), which facilitates the agency's response to emergencies impacting public health through preparation, collaboration, education and rapid intervention.
- The [Office of Environmental Health Services](#), which protects public health by preventing the transmission of diseases through food, milk, shellfish, water and sewage, and partners with other agencies to protect the environment.
- The [Office of Epidemiology](#), which protects public health and improves well-being by preventing and controlling endemic and emerging infectious diseases, as well as oversight of the state pharmacy.
- The [Office of Family Health Services](#), which improves well-being for Virginians by strengthening the health of families and communities, with a focus on programs that encourage child and family health, prevention and health promotion, including cancer prevention, and nutrition.
- The [Office of Health Equity](#), which assists with applying a health equity lens to VDH programs and areas, ensuring vulnerable populations are supported. The OHE also houses the State Office of Rural Health and multicultural engagement activities, as well as numerous scholarship programs.
- The [Office of the Chief Medical Examiner](#) (OCME), which works with multiple state and local entities and determines the cause and manner of deaths that occur under certain circumstances in Virginia. Services are completed through three regional centers. The OCME also manages the statewide anatomical program.
- The [Office of Radiological Health](#), which protects the public from unnecessary radiation exposure caused by a wide spectrum of applications used in the healing arts, research, educational institutions and industry.

Financial Administration

The Chief Financial Officer (CFO) and Assistant CFO oversee all financial and procurement-related activities across the agency, as well as newly established overarching grants management functions. The four offices within Financial Administration include the following:

- The [Office of Financial Management](#), which oversees the accounting and financial duties required to maintain financial operations within VDH offices and health districts.

August 1, 2025

- The [Office of Procurement & General Services](#), which coordinates the purchasing and distribution of non-IT equipment and supplies used by staff of the Central Office and health districts, as well as agency oversight of the James Madison building.
- The newly established [Office of Grants Management](#), which provides oversight for funding drawdowns related to all grants, as well as overarching grant guidance.
- The newly established [Office of Budget](#), which provides oversight of appropriations, forecasting and expenditure tracking for the agency.

Information Management & Administration

The Chief Information Officer oversees activities related to Information Technology (IT), public health informatics coordination and vital records/events. These areas include:

- The [Office of Information Management \(OIM\)](#), which manages IT at the Central Office and LHDs, including asset management, project management, and systems development/maintenance. OIM works closely with all offices and health districts, as well as the Virginia Information Technologies Agency to ensure appropriate oversight of IT-related activities.
- The [Center for Public Health Informatics](#), which supports programs through the provision of expertise in enterprise governance, analytics, development, translation, visualization, and dissemination of public health data and informatics knowledge to improve population health outcomes through use and understanding of data to better inform and promote public health.
- The [Office of Vital Records](#), which directs the system of vital records (reportable vital events including births, deaths, marriage and divorce) and serves as the custodian of its records, developing and distributing official state forms for vital record registration and issuance, and administering the provisions of the Code of Virginia and the Virginia Administrative Code.

Organizational Changes

As a large and complex agency, VDH routinely assesses organizational alignment to ensure continual internal and external needs and expectations are met. Recent Commissioner's Office and other key Central Office changes are listed below.

August 1, 2025

- Organizational realignment changes:
 - In November 2022 the Chief Operating Officer role was created as a gubernatorial appointment.
 - As referenced in the 2024 report, the Deputy Commissioner for Administration position was reconfigured as a CFO. The position was filled in November 2024.
 - This realignment incorporated two existing offices under the purview of the CFO, including the Office of Financial Management and the Office of Procurement and General Services.
 - Two new offices were created that are also under CFO management, including the Office of Grants Management and the Office of Budget.
 - In January 2025, the Office of Human Resources, the Office of Internal Audit and Chief Information Security Officer were realigned to report to the Chief Operating Officer, with dotted line supervision to the Health Commissioner.
 - The Chief of Staff position was transitioned to the Director of Community Relations under the Chief Operating Officer in January 2025 to focus efforts to an area of critical need and reduce perceived redundancies.
 - The Workforce Development and Engagement Director, including the Training unit, was moved under the COO in January 2025. The Training unit was previously under the supervision of the Office of Emergency Preparedness and the Office of Human Resources.
 - The Executive Assistant supporting GRA and the CFO was moved under the Workforce Development and Engagement Director in January 2025.
 - The CIO position became a separate position from the OIM Director in January 2025 and was incorporated into the Office of the Commissioner at that time.
 - The Office of Licensure and Certification was moved under the supervision of the COO in August 2025 to concentrate efforts on recruitment of Medical Facilities Inspectors (MFIs), long-standing leadership vacancies, and to drive operational efficiencies in survey and complaint investigations.
- The Assistant CFO is a new position filled in May 2025. This position takes the place of the Assistant Deputy Commissioner for Administration.
- The Assistant Deputy Commissioner for Community Health Services (CHS) was successfully filled in June 2025.
- The Public Health Policy and Planning unit director was filled in July 2025.

August 1, 2025

- The Deputy Commissioner for Population Health and Preparedness position was filled in August 2024.
- Four health district directors were appointed to serve as pilot regional health directors, in addition to their current roles. This occurred as part of a pilot program aimed at increasing routine operational oversight while decreasing span of control of 32 health directors by the Chief Deputy Commissioner for CHS. These appointments occurred in October 2024.
