<i>Subject: Certification and Change of Certification Periods</i>		<i>Policy: CRT 07.0</i>
<i>Reference: §C.F.R. 246.7(f)</i>	<i>Effective: August 12, 2013</i>	<i>Supersedes: April 1, 2013</i>

I. Policy:

Certification shall be conducted periodically to evaluate the individual's residential, categorical, financial, and nutritional eligibility in accordance with the following time frames.

II. Procedure(s):

A. Crossroads shall automatically end all certifications on the certification end date.

B. The schedule for certification is as follows:

- 1) Pregnant Woman – for the duration of pregnancy and up to six (6) weeks postpartum.
- 2) Postpartum Woman – woman up to six (6) months after termination of pregnancy, including stillbirth, miscarriage, or therapeutic abortion.
- 3) Breastfeeding Woman – woman up to one (1) year based on the actual delivery date. For a Breastfeeding mom of an infant with a birthday on the first day of the month, the certification period for mom ends on the last day of the month prior to the infant's birthday, since he / she was not an infant on any day of the month he/she turned one.
- 4) Infant – up to the first birthday. For an infant whose birthday is on the first day of a month, the certification period ends on the last day of the month prior to the birthday, since he / she was not an infant on any day of the month he /she turned one.
- 5) Child – for twelve (12) month periods, up to his / her fifth birthday. For children whose fifth birthday is on the first of a month, the certification period ends on the last day of the month prior to the fifth birthday, since the child was not eligible on any day of the month he /she turned five.

C. Change in Certification Periods

- 1) Breastfeeding Woman – A woman who discontinues breastfeeding and is less than six (6) months postpartum, shall continue to receive WIC benefits as a postpartum woman if she was certified due to a medical or nutritional condition.
 - a) If a woman was certified based solely on breastfeeding her infant, determine if she meets nutrition risk criteria that allows her to remain on the program as a postpartum woman. If not, WIC benefits must end.
