

TAKE A SHOT AT CANCER!

Protect your child from HPV-related cancers by **vaccinating**. The Human Papillomavirus (HPV) **spreads easily**, and most people don't know they have it.

90%

of cervical cancers are caused by HPV

70%

of mouth & throat cancers are caused by HPV

The HPV vaccine protects your child's future.

The vaccine is recommended with other routine adolescent vaccinations

Meningitis

HPV

Tdap

Prevents

types of cancer

HPV can be prevented in both **girls** and **boys** through **vaccination**. Boys and girls should **complete** the vaccine series by **age 13**.
