

## Every Woman's Life

*For Your Breast and Cervical Health*

Call **1-866-395-4968** for a **FREE** Mammogram and Pap test.

### Why do these tests provide peace of mind?

Out of every 1,000 mammograms, only one or two lead to a cancer diagnosis. In the case of Pap tests, only about six percent show abnormalities. The screening tests are quick, simple, and cause minimal discomfort. Your appointment also will include a free clinical breast and pelvic exam.

More important, if these tests lead to a cancer diagnosis, successful treatment can increase dramatically with early detection. Also, Medicaid may provide free treatment.

### How do you sign up?
