No	[Bar from 0 to 77.4]						77.4	73.8	81.0	

Symbols indicate whether the health indicator had statistically significant differences between levels (p-value <0.05, chi-square test). Virginia PRAMS is a population-based survey of Virginia resident women with a recent live birth. Approximately 1,200 women are invited to participate annually. Percent (%), 95% confidence interval (CI) and estimated number of women are statistically weighted to represent all Virginia women with a live birth in the given time period.

Virginia PRAMS is a collaboration between the Virginia Department of Health and the Centers for Disease Control and Prevention. For more information on Virginia PRAMS, visit our website at: <http://www.vdhivewell.com/prams> or call 877-897-7267.
