Married		13.3	10.4	16.2
Not Married		12.7	7.5	17.9
<b>Previous Live Birth</b>				
Yes		13.2	10.7	15.8
No				

Symbols indicate whether the health indicator had statistically significant differences between levels (p-value <0.05, chi-square test). Virginia PRAMS is a population-based survey of Virginia resident women with a recent live birth. Approximately 1,200 women are invited to participate annually. Percent (%), 95% confidence interval (CI) and estimated number of women are statistically weighted to represent all Virginia women with a live birth in the given time period.

Virginia PRAMS is a collaboration between the Virginia Department of Health and the Centers for Disease Control and Prevention. For more information on Virginia PRAMS, visit our website at: <http://www.vdhivewell.com/prams> or call 877-897-7267.
