

**March 27, 2009 Update:** On March 23, 2009 the signed agreements were delivered to the NRC. On March 24, 2009 the NRC issued a press release stating: "NRC COMPLETES VIRGINIA AGREEMENT TO REGULATE CERTAIN RADIOACTIVE MATERIALS". So beginning 12:00 a.m. on March 31st the Radioactive Materials Program will have authority over the licensing of radioactive materials in the Commonwealth of Virginia. If you have an amendment request you may either mail them or fax them to us, but please bear with us for the first couple of weeks as we must accept the NRC licensing files and place them in our filing system.
