

VA-SORH Sub-Recipient Grant Restrictions (Unallowable Cost)

- The organization may request no more than the amount listed in the summary of funding. Awards to support projects beyond the first budget year will be contingent upon satisfactory progress in meeting the project's objectives, and a determination that continued funding would be in the best interest of VA-SORH.
- Fund research projects that lack a direct linkage component addressing the following:
 - Workforce Development Programs
 - Telehealth
 - Substance Misuse
 - Behavioral Health
 - Mobile Integrated Health/Community Paramedicine
- Fund travel expenses to conferences, food, completed projects, debt reduction campaigns, building an endowment, land acquisition projects, religious or church-sponsored facilities limited to church membership or projects that exclusively serve religious purposes, general operating costs, fundraisers or raffles, alcohol, entertainment cost, promotional items, advisory boards, honoraria, invention, patent, or licensing costs, lobbying, meals, pre-award costs, promotional items (SWAG,) etc.
- The Virginia SORH grant has allowed 20% of the grant budget to be put towards salary to directly support SORH project management and implementation; the SORH grant is not allowed to fund: stipends for undergraduate/graduate/higher education internships, fellowships, and grant funds cannot be used to reimburse tuition due to the number of grants/scholarships who directly support the need.
- Underwrite sponsorships and tuition
- For equipment costing over \$5,000.00 (per unit), *which is allowable*, under the Virginia Department of Health(VDH) policy and regulations, the equipment is the property of VDH, and will be thoroughly tracked through the duration of the grant year. After the grant period has ended, the equipment must still be tracked and reported until the equipment's expiration date.
- An organization **may not receive funding for more than one project until the completion or termination of funded program.**
