

Chemical / Biological / Radiological (CBR) Training Resources

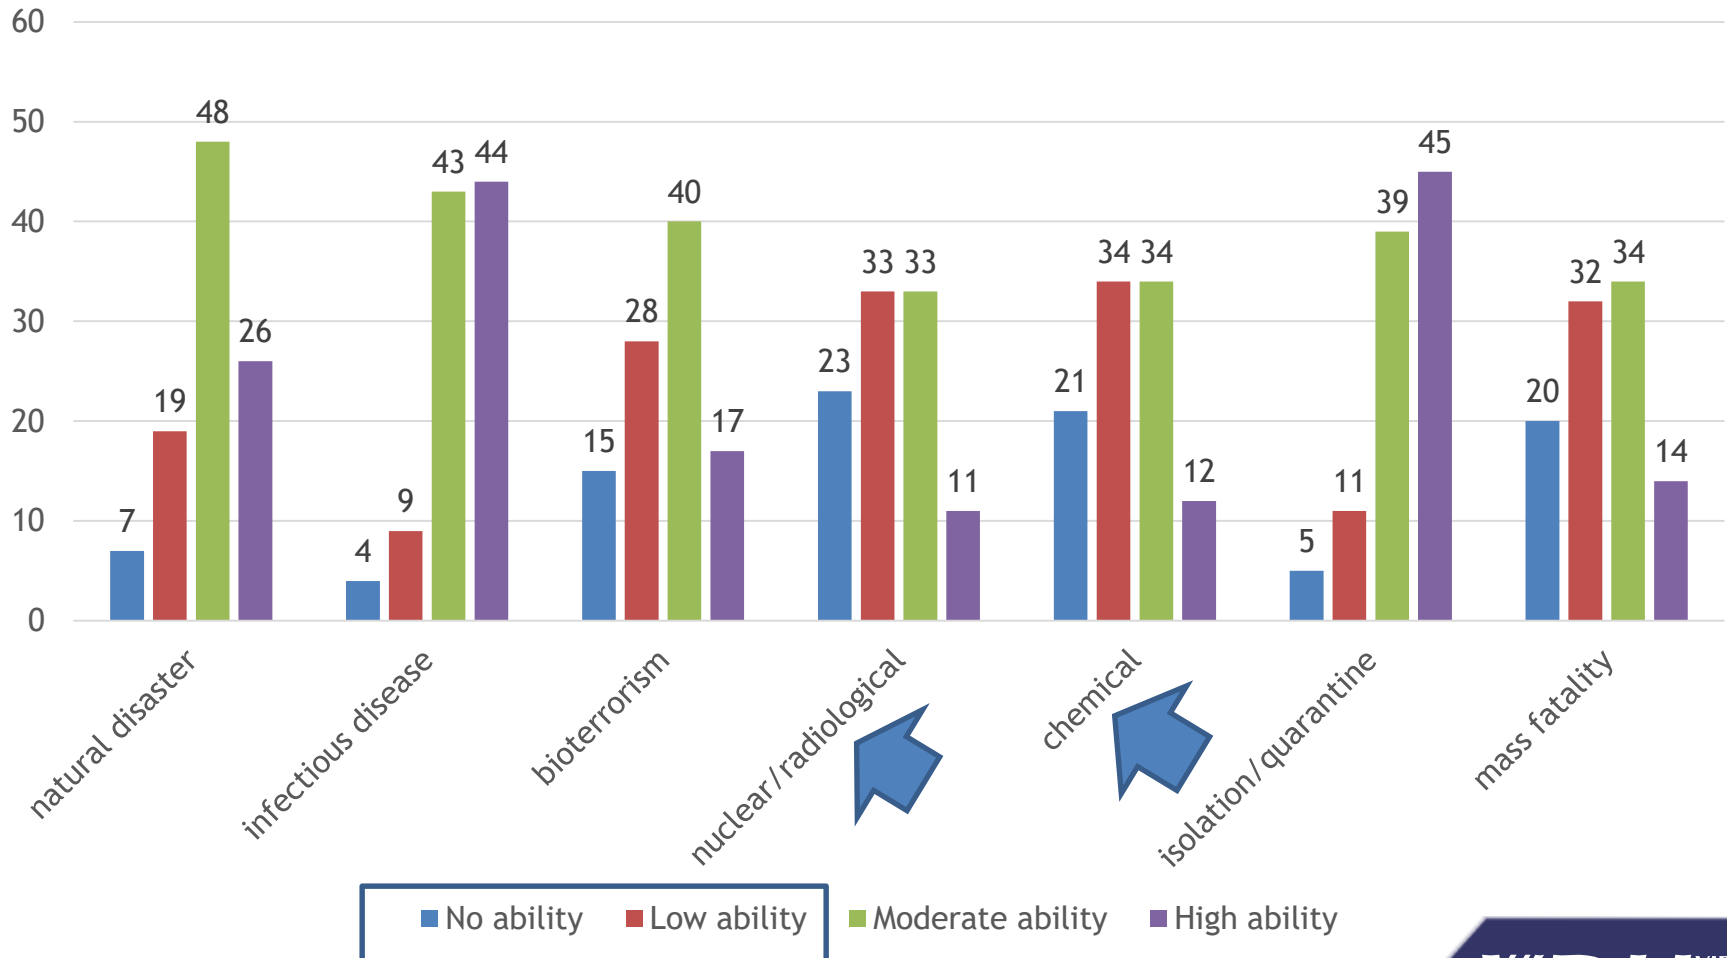

Donald E. Moore, MS, CTT+
Public Health Preparedness Training Coordinator
Virginia Department of Health
Office of Emergency Preparedness

28 September 2022

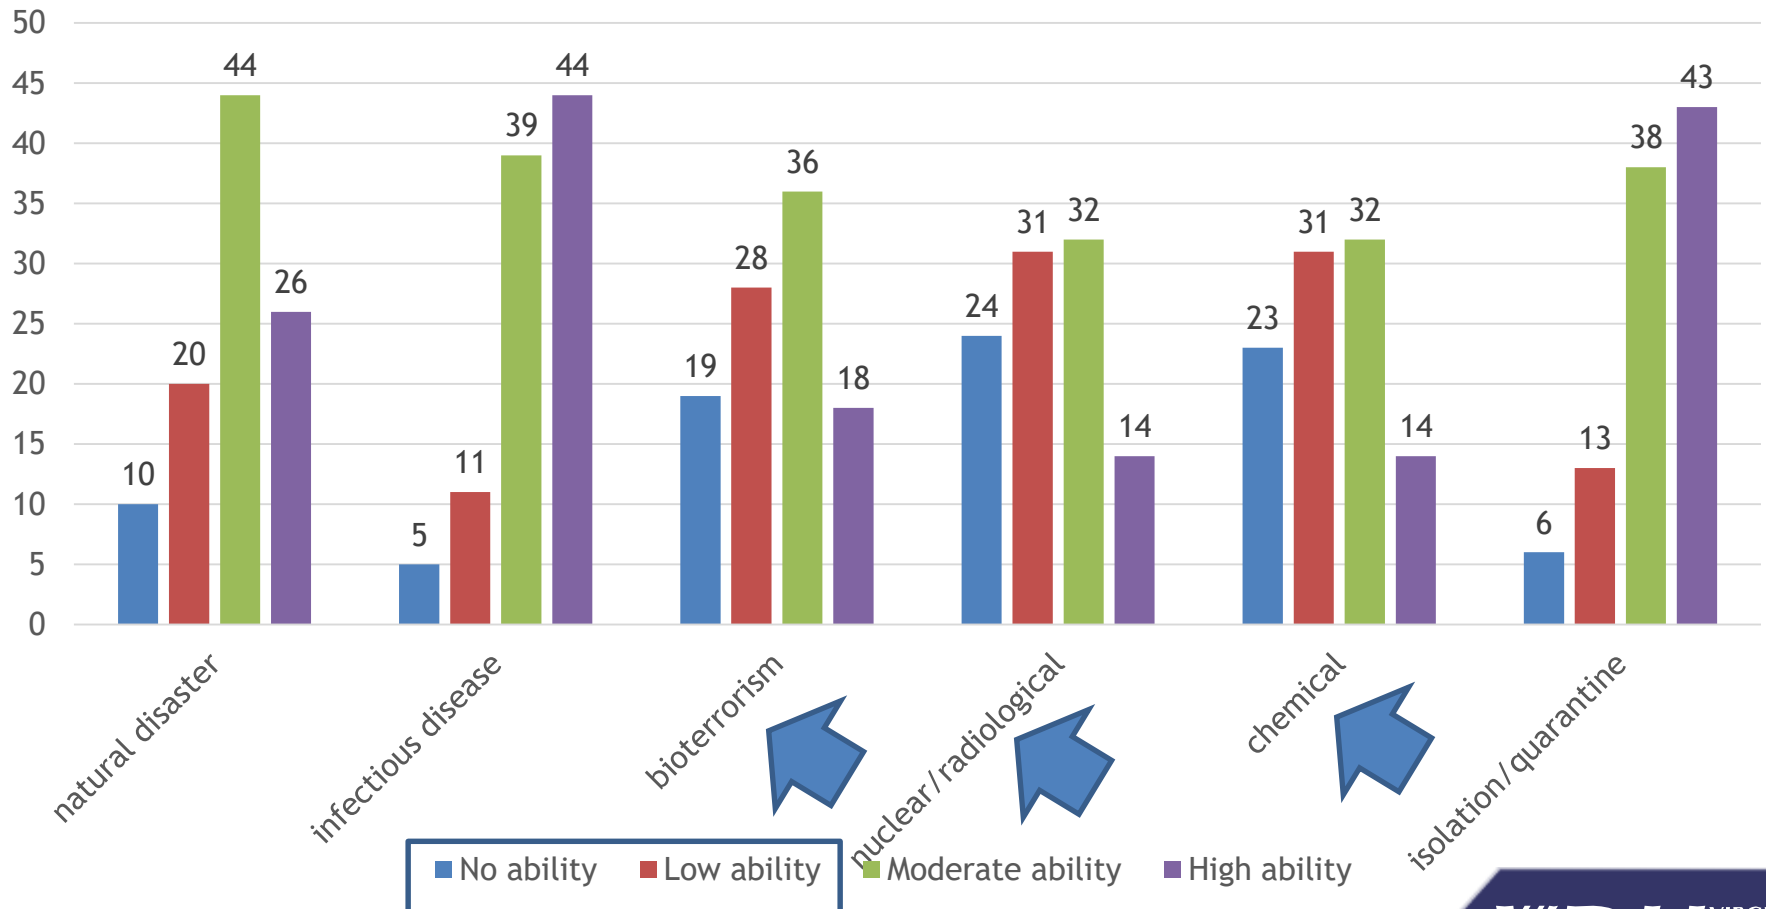

Health District Top Training Priorities –

- Nuclear/radiological incidents
 - Chemical incidents
 - Bioterrorism
 - Mass fatalities
-
- *Specifically, what is my role and/or my health district's role in an incident?*

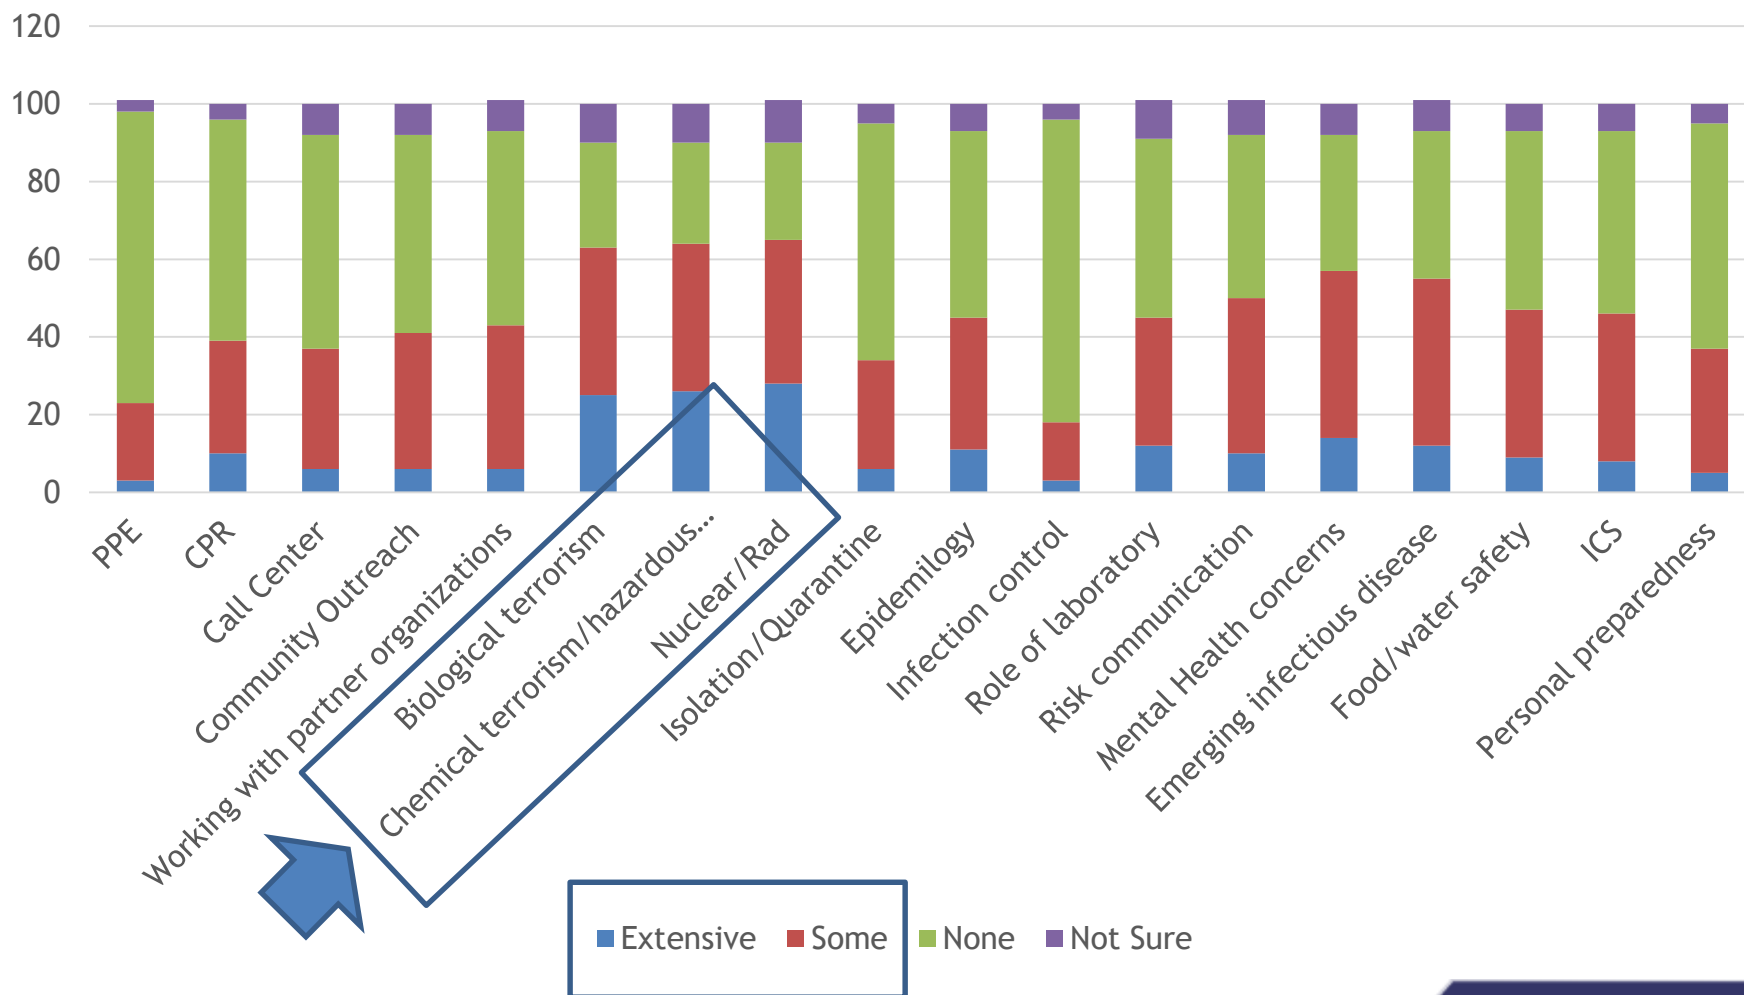

“I can explain *my health department’s* role in an emergency due to a(n)...”

“I can describe *my* role in an emergency due to...”

Perceived Training Needs for Emergencies
