

## Nurse Manager Meeting Track Overview

### **What Do We Do With All of This Stuff?: Protected Health Information (PHI) Management and Continuity of Care During and After Sheltering Operations**

#### Learning Objectives:

- Describe the role of the PHN in PHI management during and after shelter operations
- Outline current processes for PHI management during and after shelter operations
- Describe current processes in managing continuity of care after sheltering operations
- Discuss additional documentation considerations during shelter operations (e.g. safety event reporting)
- List three implications in using an electronic documentation platform in PHI management during shelter operations.

2:10-2:30	Welcome and Introductions of Attendees
2:30-3:00	What is the Current State: Shelter PHI Management Across LHDs
3:00-3:30	What is the Current State: Continuity of Care Processes Across LHDs
3:30-3:50	Introduction to Electronic PHI Documentation Platform for Sheltering Operations
3:50-4:00	Break
4:00-5:00	Table-Top Exercise Using Electronic Documentation Platform (Nurse Manager will need Laptops)
5:00-5:30	Discussion/Where do we feel confident and where could we use some further training or clarification
