Skip the line at the health department clinics by registering advance at vaccineappointments.virginia.gov!
Walk-ins are welcome.

If you are looking for a clinic in another area, please visit vaccines.gov and use your zip code to find appointments at local pharmacies and healthcare providers. These appointments are available to those ages 12+ who live, work, or go to school in the Central Shenandoah Health District.

If you are having problem making an online appointment, please call your local health department. Please help us reserve the phone lines for those with limited internet access and/or low computer literacy.

We added a new section to our website that includes the vaccine events happening throughout our health district!

These include events hosted by the Central Shenandoah Health District and other vaccine partners. The clinics are separated by region and are subject to changes.

Parent or guardian must be present for those under 18.

WHAT'S NEW THIS WEEK

Vax the Valley at Barren Ridge Vineyards is tomorrow, July 31!

Join us for next installment of Vax the Valley tomorrow at Barren Ridge Vineyards in Fishersville. Vax the Valley is a celebration of the progress we've made in COVID-19 vaccination efforts, and an opportunity to go even further! Vax the Valley will feature live music, food trucks, prizes from local business, kids activities, and a free COVID-19 vaccine clinic.

All are welcome, even if you've already been vaccinated!

If you've already been vaccinated, bring your vaccine card to enter raffles for a chance to win prizes from local businesses! A picture of your vaccine card will suffice for raffle entry.

Show your vaccine card for a **FREE** popcorn!

WHEN SHOULD YOU TEST FOR COVID-19?

DON'T TAKE THE RISK - TAKE THE TEST!

Vaccinated or not, take a COVID-19 test if you are feeling sick.

No matter your vaccination status, wear a mask, practice social distancing, and consider a COVID-19 test if you're feeling sick or have symptoms of COVID-19. A quick test can give you results so you can know if you're carrying the virus. Take the time to Test, Know & Go when you gather with a group.

DON'T TAKE THE RISK. TAKE THE COVID-19 TEST.

Vaccinated or not, if you're feeling sick take a COVID-19 test.

TEST KNOW GO Repeat.

NEED A COPY OF YOUR COVID-19 VACCINE RECORD?

Visit the self-serviceportal online: vaccinate.virginia.gov

A self-service portal is now live and accessible via Vaccinate.Virginia.gov to view COVID-19 vaccination records.

Access to the records requires two-factor verification. The record can be saved and printed or downloaded as a PDF.

The vaccination record will only show COVID-19 immunizations, regardless of if the individual has additional vaccinations listed in VIIS. Vaccines administered and not reported in VIIS (e.g., out-of-state vaccinations, vaccinations administered by federal entities not reporting to VIIS) will not reflect in the self-service portal

This portal is not intended to be a "vaccine passport" but serves as a tool to access your COVID-19 vaccination record in the event of a lost original card.

[Click here to view your vaccine record!](https://vaccinate.virginia.gov)

Become a Community Ambassador!

VDH's Community Ambassador program is an important part of our vaccine outreach efforts! We need your help to keep it going strong. As an Ambassador, you'll help share COVID-19 updates and materials from top experts and sources. We need people like you who can spare a few minutes each week to help keep Virginians safe.

[Click here to learn about the Community Ambassador program!](#)

COVID-19 Vaccine Mobile Clinics

We are still planning mobile clinics! CSHD will be offering mobile COVID-19 vaccine clinics in the community in an effort to increase access to COVID-19 vaccines. To succeed in these efforts, we need your help! **If your organization is interested in a COVID-19 vaccine clinic for your community, then we are asking that you complete this request form.** You can also go to <https://redcap.link/32fiylbj>. Our mobile clinics can be walk-up with no registration needed and can be flexible in date and time of clinics. Our clinics can serve anywhere from 20-200 people. This service is free and available to all community members.

For some inspiration, a mobile clinic could be held at:

- a local festival, event, block party, farmers market, etc.
- a church, community center, business
- a food pantry, homeless shelters
- a park or public space

If interested, please complete the form and I will reach back out to you within 3-4 business days. **Please share with other community members that may be interested in this service.** A link to this request form will be available on our website at <https://www.vdh.virginia.gov/central-shenandoah/covid-19-vaccine-information/>.

[Click here to request a COVID-19 vaccine clinic for your community!](#)

Interested in hosting a COVID-19 Vaccine Information Session?

Want to learn more about the difference vaccines? How to pre-register? Host a COVID-19 vaccine information session! If your organization would like more information about the COVID-19 vaccine you can schedule an information session with our health education team. Sign up for a session [here](#).

CENTRAL SHENANDOAH HEALTH DISTRICT COVID-19 DATA

District COVID-19 Activity

Cases have been increasing in our region (Northwest) for the last 40 days and cases are considered to be increasing. It is important to take preventative measures like avoiding crowded areas, wearing a mask, and washing your hands if you are not fully vaccinated. You can explore individual locality metrics [here](#). To learn more about the VDH Pandemic Metrics, click [here](#).

COVID-19 Vaccination Rates

In the Central Shenandoah Health District, vaccination percentages are broken down by locality and city below:

	Population receiving one dose	Population fully vaccinated	Adults receiving one dose	Adults fully vaccinated
Rockingham	46.8	43.2	56.5	52.4
Harrisonburg	47.0	42.7	53.2	48.5
Augusta	49.4	46.2	58.1	54.5
Staunton	57.9	53.3	68.1	63.1
Waynesboro	53.3	48.5	66.0	60.6
Rockbridge	51.3	47.4	59.6	55.4
Lexington	49.0	45.6	53.9	50.2
Buena Vista	47.2	43.0	57.1	52.4
Bath	48.6	44.2	55.9	51.1
Highland	52.3	49.9	59.3	56.7
Totals:	50.3	46.4	58.8	54.5

You are considered to be fully vaccinated 2 weeks after their second dose in a 2-dose series or 2 weeks after a single-dose vaccine.
