

📌 Community Ambassadors 1,400 signs up and counting!

A critical part of our communications strategy relies on the help of trusted messengers. You can help us recruit these community ambassadors by [sharing this sign up form](#) with your partners far and wide. The registrants will receive regular updates that include educational materials, social shareables and more. As we move forward, we'll learn more from them about the tools that will make the biggest impact.
