

.... NEW PVCC PROGRAM OFFERING! COMMUNITY HEALTH WORKER

Prepare for a career as a Community Health Worker. As a trusted figure in this role, you will apply understanding of the communities you serve to connect people to services and resources to improve health outcomes. The work involves outreach, community education, system navigation, and referrals.

BENEFITS OF TAKING THIS PROGRAM:

- Connect with local employers in this growing field through PVCC's award-winning Network2Work program
- Enhance employable skills as a Community Health Worker
- Full scholarships available
- Gain college credit
- Learn foundational concepts in community health and health promotion, apply preventive health knowledge, practice outreach and advocacy skills in your community, and connect directly with local agencies and services

COURSE LISTING DETAILS:
