**RE: Carilion Roanoke Memorial Hospital
Hospital Licensure Number: H 1840
Request for Authorized Bed Capacity Increase in Response to COVID-19
Architecture and Design Temporary Variance Request for Bed Addition**

Dear Commissioner Oliver:

Pursuant to Executive Order Fifty-Two (2020) issued on March 21, 2020, Carilion Roanoke Memorial Hospital ("CRMH") requests the Commissioner's authorization for a licensed bed capacity increase to serve additional patients during the COVID-19 pandemic emergency. Currently licensed to operate 703 beds, CRMH requests authorization to operate 730 or more licensed beds. Enclosed for your review are floor plans illustrating the proposed bed addition.

To expand bed capacity, CRMH will provide acute care services in rooms located in the hospital's East Wing on the 6th, 8th and 9th floors. These rooms were previously used as patient rooms but are no longer used for patient care. Specifically, CRMH proposes to add 10 inpatient beds on the 6th floor, 10 inpatient beds on the 8th floor and 7 inpatient beds on the 9th floor. Each of these floors has existing patient rooms in adjacent areas. Certain but not all areas that will include the additional beds lack a nurse call system, private restroom, oxygen supply, vacuum, or medical air. The layout and outfitting of each space are detailed on the floor plans attached for review.

The proposed plan will allow CRMH to accommodate patients in a safe and effective environment of care. To the extent the proposed bed addition does not strictly comply with the architectural and design requirements set forth at 12 VAC 5-410-650, CRMH seeks a temporary variance to these standards in accordance with 12 VAC 5-410-30.
