As required by Section 32.1-102.3B of the Code, I have considered all factors that must be taken into account in a determination of public need, and I have concluded that **conditional approval** of the request is warranted based on the following findings:

2. The capital costs of the proposed project are reasonable.
3. The proposed project appears economically viable in the immediate and the long-term.
4. There is no known opposition to the proposed project.
