**Children's Hospital of the King's Daughters, Inc., Norfolk, Virginia  
Introduce CT Services with One Cone Beam CT Unit**

Dear Ms. Martin:

In accordance with Chapter 4, Article 1.1 of Title 32.1 of the Code of Virginia of 1950 (the Code), as amended, I reviewed the application and all supporting documents submitted by Children's Hospital of the King's Daughters, Inc. to introduce CT services through the addition of one cone beam CT unit at CHKD Health Center at Fort Norfolk.

As required by Section 32.1-102.3B of the Code, I have considered all factors that must be taken into account in a determination of public need, and I have concluded that **conditional approval** of the request is warranted based on the following findings:

1. The project is consistent with the applicable criteria and standards of the State Medical Facilities Plan and the Eight Required Considerations of the Code of Virginia.
2. The proposed cone beam CT scanner is a narrowly tailored CT scanner that offers technological innovation and substantial benefit to patients with little potential of systemic effect.
3. The proposed project is more advantageous than the alternative of the status quo.
4. The capital costs are significantly less than other projects of this type.

This certificate is valid for the period February 15, 2021 through February 14, 2022. The total authorized capital cost of the project is \$78,045.

Please file two copies of the application for a certificate extension with the Department no later than 30 days before the expiration date of the certificate. Part VIII of the Virginia Medical Care Facilities Certificate of Public Need Rules and Regulations identifies the filing requirements and review procedure for certificate extension requests.

Sincerely,
