RE: COPN No. VA-04826
Carilion Medical Center, d/b/a Carilion Roanoke Memorial Hospital
Roanoke, Virginia
Addition of a Computed Tomography (CT) Scanner

Dear Mr. Emerson:

In accordance with Chapter 4, Article 1.1 of Title 32.1 of the Code of Virginia of 1950 (the Code), as amended, I reviewed the application and all supporting documents submitted by Carilion Medical Center to expand CT services with the addition of one fixed CT scanner.

As required by Section 32.1-102.3B of the Code, I have considered all factors that must be taken into account in a determination of public need, and I have concluded that **conditional approval** of the request is warranted based on the following findings:

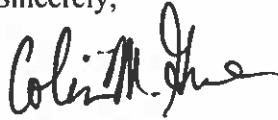

1. The proposed project is generally consistent with the applicable criteria and standards of the State Medical Facilities Plan and the Eight Required Considerations of the Code of Virginia.
2. The capital costs are reasonable.
3. The proposed project appears economically viable both in the immediate and in the long-term.
4. No better alternative to the proposed project exists.
5. The applicant has adequately demonstrated a unique institutional need for the additional CT scanner.

6. There is no known opposition to the proposed project.
7. Approval of the proposed project is not likely to have an extensively negative impact on the staffing or utilization of existing PD 5 providers of CT services due to recruitment efforts focusing on new graduates.

This certificate is valid for the period March 9, 2023, through March 8, 2023. The total authorized capital cost of the project is \$1,417,931.

Please file two copies of the application for a certificate extension with the Department and one copy with the regional health planning agency no later than 30 days before the expiration date of the certificate. Part VIII of the Virginia Medical Care Facilities Certificate of Public Need Rules and Regulations identifies the filing requirements and review procedure for certificate extension requests.

Sincerely,

Colin M. Greene, MD, MPH
State Health Commissioner
