Re: Letter of Intent to Establish a Cardiac PET/CT Service

Dear Commissioner Webb:

Pursuant to 12 VAC 5-220-180, please accept this letter of intent advising that Richmond Heart & Vascular Associates PLLC intends to file a certificate of public need application to establish a cardiac PET/CT service with one fixed PET/CT scanner with independent use of the CT component in Goochland County in Planning District 15.

The PET/CT scanner will be used exclusively for diagnostic cardiac perfusion imaging. The CT component will not be operated as a standalone diagnostic CT service. It will be utilized exclusively for cardiac imaging including CT attenuation correction in conjunction with PET myocardial perfusion imaging, coronary CT angiography (CCTA), and coronary artery calcium scoring.

I would appreciate if you would send me the appropriate application forms for this project. Thank you for your assistance.

Sincerely,

Colin P. McCarthy
