RE: COPN Request No. VA-8859
HCA Health Services of Virginia, Inc.
Henrico, Virginia
Establish a Medical Care Facility with One (1) CT Scanner

Dear Mr. Stallings:

In accordance with Article 1.1 of Chapter 4 of Title 32.1 (§ 32.1-102.1 *et seq.*) of the Code of Virginia (the "COPN Law"), I have reviewed the application captioned above. As required by Subsection B of Virginia Code § 32.1-102.3, I have considered all matters listed therein in making a determination of public need under the COPN law.

I have reviewed and adopted the enclosed findings, conclusions and recommended decision of the adjudication officer that convened an informal fact-finding conference on the application in accordance with the Virginia Administrative Process Act, Virginia Code § 2.2-4000 *et seq.*

Based on my review of the application and on the recommended decision of the adjudication officer, I am approving the application, with a condition addressing charity care. I find that this project would meet a public need.

The reasons for my decision include the following:

- (i) The White Oak ER project is consistent with the State Medical Facilities Plan (SMFP), is in harmony or in general agreement with the SMFP or with the public policies, interests and purposes to which the SMFP and the COPN Law are administered;
- (ii) PD 15 has a slight deficit of CT scanners, as calculated by agency staff, the Division of Certificate of Public Need (DCOPN);
- (iii) Henrico Doctors' Hospital - Parham has an institutional need to expand its CT service, as recognized by DCOPN and shown by utilization data;
- (iv) The total costs of the White Oak ER project are reasonable and the project is financially feasible in the short and long-term;
- (v) The White Oak ER project stands to promote geographic and financial access, as well as health equity, by expanding access to services and addressing barriers to care for a minority majority population in and around the eastern portion of Henrico County; and
- (vi) No reasonable alternative exists that would serve the purpose of meeting a public need, or that has capacity for improving the provision of outpatient CT services and promoting geographic and financial access to needed services.

Sincerely,

Dr. Cameron Webb
State Health Commissioner
