**Re: Letter of Intent
Advanced Health Care and Wellness, LLC
Establish Cardiac PET/CT Services in PD 20**

Dear Commissioner Shelton,

I am writing on behalf of my client, Advanced Health Care and Wellness, LLC d/b/a Heart and Vascular Group, to notify you of its intent to file a certificate of public need application for the establishment of a cardiac PET/CT service with one fixed PET/CT scanner in Planning District 20. The PET/CT scanner will be used exclusively for diagnostic cardiac perfusion imaging. The CT component will be used only for attenuation correction of perfusion images and will not be used for stand-alone diagnostic CT imaging.

It is our understanding that the application will be due on December 1, 2025 and reviewed in Batch Group F for the upcoming cycle beginning January 10, 2026. Please confirm receipt of this notice and provide the required forms.

Sincerely,

Erin Whaley
